

0.1 Introduction

The CABIN CREW MANUAL (CCM) is the property of Thai Airways International Public Company Limited which is structured in a two-part format:

- Cabin Crew Manual (CCM)/Cabin Crew Manual Part 1 Temporary Revision contains general information, normal and emergency procedures. Cabin Crew Management (QA)/Inflight Safety Standard (QA-C) is responsible for the overall administration of CCM Part 1 which involves coordinating with all departments concerned in ensuring that CCM Part 1 is kept up-to-date. In order to keep the contents update through proper channels, the responsible functions are specified in CCM.

The CCM Part 1 is a part of Flight Safety Document System (FSDS). The management and control of this manual shall follow the requirements of FSDS as describe in Chapter 9 of Quality Assurance Manual (QAM).

- Cabin Crew Manual Part 2 or Cabin Crew Operating Manual (CCOM) contain specific aircraft and systems information. New Aviation Technologies and Equipment (PC Team 3) is responsible for the overall administration of CCM Part 2.

The CCM, CCOM and the Cabin Crew Manual Part 1 Temporary Revision are available in Electronic format at: http://flighttech.thaiairways.co.th/cabin_ccm.htm and in MDM Content Locker mobile application.

0.1.1 Purpose and Scope

This manual is specifically prepared for cabin crew and contains all relevant information needed for operation in accordance with the Company's standard and policy regarding safety, emergency, and security.

Although the procedures in this manual must be adhered to, nothing should limit personnel from acting on their own best judgment in an emergency.

0.1.2 Document Organization

The CABIN CREW MANUAL (CCM) is organized in the following manner:

- Cabin Crew Manual Part 1 (CCM):
 - Chapter 0, Preface—contains general information regarding the manual's purposes, structure, and content. It also contains lists of abbreviations, a record of revisions, and a list of effective sections/ subsections.
 - Chapters 1 through 7—contain general information, normal procedures and non-normal/emergency procedures applied to all normal operations and emergency occurrences of each subject.

- Cabin Crew Manual Part 1 Temporary Revision (CCM Part 1 Temporary Revision)

The purpose of CCM Part 1 Temporary Revision is to ensure that the significant change information in the Cabin Crew Manual Part 1 is well updated.

The significant change of policy, guidance, data and/or procedure in the CCM Part 1 Temporary Revision is safety information. The promulgation of such change is mandatory to ensure the safety and compliance of cabin operations and also enable information about document discrepancies to be relayed to cabin crew at very short notice.

CCM Part 1 Temporary Revision should change as a permanent change in six (6) months or in the next normal revision cycle, whichever comes first.

- Cabin Crew Manual Part 2 or Cabin Crew Operating Manual (CCOM) contains specific aircraft and system information provided separately in each aircraft type.

0.1.3 Governing Regulations and Compliance

The information in the CCM is based on and covers the regulations and requirements issued by The Civil Aviation Authority of Thailand (CAAT) as applicable. Any laws, regulations and procedures of the States abroad in which operations are conducted, which are required and different from those described in this manual, will be provided separately via other appropriate document for crew to comply with.

0.1.4 Intended Audience

All cabin crew shall be thoroughly familiar and operate in accordance with laws, policies, rules, regulations, instructions, procedures and closely follow the contents of the CCM relevant to the performance of their duties.

0.1.5 Ownership and Confidentiality

The CCM is the property of Thai Airways International Public Company Limited. Since the manual includes information regarding THAI policies and methods of operation, relevant of its contents in any manner to persons not associated with THAI is prohibited.

0.1.6 Accountability for Content Management

Cabin Crew Management (QA)/Inflight Safety Standard (QA-C) is responsible for the overall administration of CCM Part 1. Editorial responsibilities for each chapter of the CCM can be delegated to responsible functions as follows:

Chapter	Content	Responsibility
0	General	QA-C, 1A-B
1	Applicable Laws, Regulations and Rules	OB, QA, OD-A, QA-C
2	Standard Operating Procedures	OB, QA-C
3	Administration of First Aid	IS-C, OD-A, PC Team 3
4	Cabin Emergency Procedures	OB, OD-A, QA-C
5	Emergency Equipment and Location	PC Team 3
6	Dangerous Goods	OD-A
7	Security	OB

New Aviation Technologies and Equipment (PC Team 3) is responsible for the overall administration and editorial responsibilities of CCM Part 2 (CCOM).

CCOM: Aircraft-specific Information	
A320-200 (cabin version 3205)	PC Team 3
A320-200 (cabin version 3206)	PC Team 3
A321neo (cabin version 3211)	PC Team 3
A330-300 (cabin version 3305)	PC Team 3
A330-300 (cabin version 3306)	PC Team 3
A350-900 (cabin version 3591)	PC Team 3
A350-900 (cabin version 3592)	PC Team 3
A350-900 (cabin version 3593)	PC Team 3
A350-900 (cabin version 3594)	PC Team 3
B737-400 (cabin version 7349)	PC Team 3
B737-800 (cabin version 7389)	PC Team 3
B777-200ER (cabin version 77E1)	PC Team 3
B777-300ER (cabin version 77B1)	PC Team 3
B777-300ER (cabin version 77Y1)	PC Team 3
B787-8 (cabin version 7872)	PC Team 3
B787-8 (cabin version 78B1)	PC Team 3
B787-8 (cabin version 78B2)	PC Team 3
B787-9 (cabin version 7891)	PC Team 3
B787-9 (cabin version 7892)	PC Team 3
B787-9 (cabin version 78W1)	PC Team 3

0.1.7 Document Management and Presentation

This manual is designed in accordance with FSDS requirements and considers Human Factor Principles during the publication, validation and revision processes. The content is presented in a standard format and divided into appropriate chapters and sections that should be easily comprehended by readers. Pictures, tables and other graphic information are also used to help providing clear and accurate information.

Revisions

The CCM Part 1 is subject to the revision control. The updated data is published in the Revision Information of each revision.

The interval of CCM Part 1 content review is in a 180 days basis. The normal revision cycle of CCM Part 1 is at least once a year. In case of urgency, the temporary revision in form of CCM Part 1 Temporary Revision (CCM Part 1 TR) is issued and then incorporated by QA/QA-C in CCM Part 1 upon normal revision cycle.

Distribution

CCM Part 1 is distributed only in the digital format and can be accessed through Operations eLibrary and iCARE website.

The onboard CCM Part 1 and CCM Part 2 (CCOM) are in the electronic format in the form of MDM document available in the Content Locker mobile application installed in the Integrated Route Folder (iRF) which can be used as a reference.

The iRF shall be located in the unobstructed stowage that is accessible by cabin crew, [see Chapter 2.27.8.1—Integrated Route Folder \(iRF\)](#).

The provision of CCM Part 1 and CCM Part 2 (CCOM) in the electronic format is also in the Content Locker mobile application installed on cabin crew personal electronic devices.

Distribution Lists		
BKK1A-B	BKKDQ-1	BKKOD-A
BKKPC Team 3	BKKPC Team 4	BKKQA
BKKQB	CAAT	

When published, the users of CCM Part 1 as listed in the table above will be notified by QA-C of the new revision via email generated from SafetyManager365. The document distribution module in SafetyManager365 is used to track the acknowledgement of CCM Part 1 users in the distribution list.

CCM Part 1 will be distributed to CAAT through FOSD.

It is responsibility of each manual holder to guard the manual against damage and loss and to keep it up-to-date.

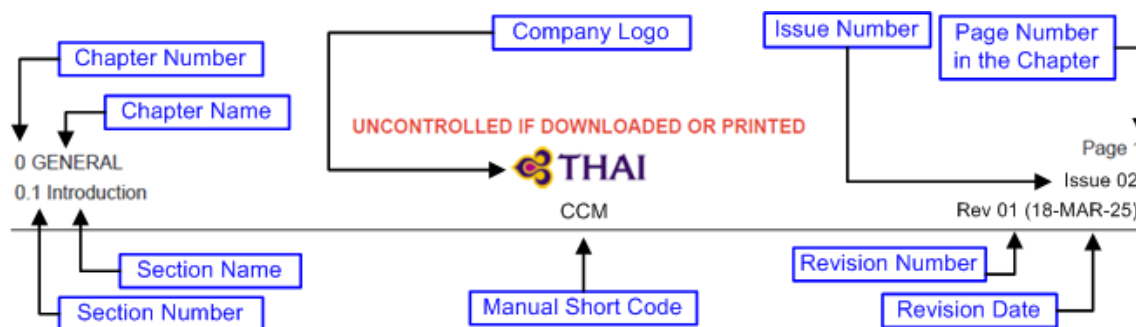

It is also the responsibility of each manual holder to inform QA-C of any discrepancy found in the manual.

To prevent the use of out-of-date documents, document users must always periodically check the document's revision after downloaded or printed.

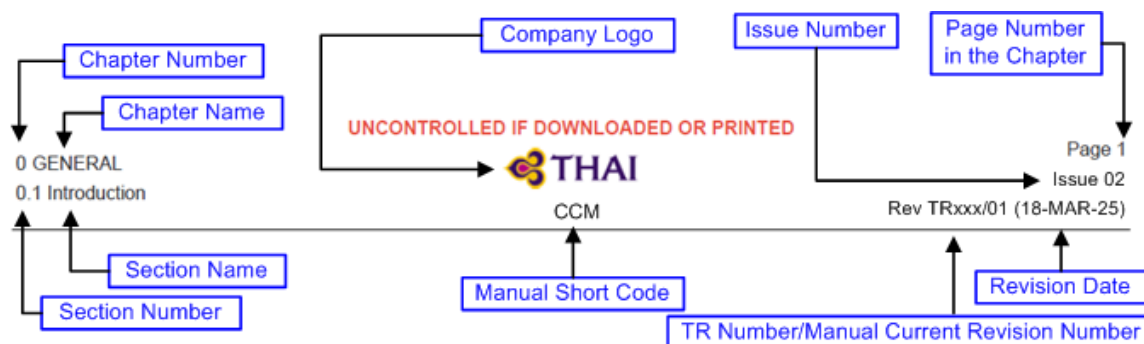

Identification

CCM Part 1 page identification comprises fields in each header that indicate the company logo, manual short code, chapter number, chapter name, section number, section name, page number in the chapter, revision number and revision date respectively. An example is shown below.

Example of Page Identification for Normal Revision

Example of Page Identification for Temporary Revision

Warning, Cautions, and Notes

The following advisory levels are used throughout this manual.

WARNING: An operating procedure or technique, etc. that may result in personal injury or loss of life if not followed carefully.

Caution: An operating procedure or technique, etc. that may result in damage to equipment if not followed carefully.

Note: An operating procedure or technique, etc. that is important. Notes may also contain safety-related information.

Aircraft Effectivities

Differences in aircraft configuration are shown by use of aircraft effectivities throughout CCM Part 2 (CCOM). The following rules are used to express aircraft effectivities:

- aircraft effectivities are listed in alpha-numeric order. A range of aircraft is defined by the word "to" and a comma in the effectivity range indicates a break in the range, e.g., B777-200ER HS-TJR to TJW includes the alphabets R through W, and B787-8 HS-TQA, B, C, D, E, F indicate effective individual aircraft.
- aircraft effectivities apply only to the paragraph, illustration, operational note, procedural step, etc. and to subordinate items (if any).

0.1.8 Feedback

The content of the manual is edited and controlled by the Inflight Safety Standard (QA-C). Any constructive suggestion or comment for improvement is welcome.

The feedback should be addressed to bkkqacoffice@thaairways.com.

0.1.9 Corporate Approval

This document is approved for use by Thai Airways International Public Company Limited.

Bangkok, 14 May 2024

THAI AIRWAYS INTERNATIONAL PUBLIC COMPANY LIMITED

Operations Department (DO)

Capt. Chawan Ratanawaraha
Chief

0.2 Abbreviations and Definitions

0.2.1 Abbreviations

The following abbreviations may be found throughout this manual.

Some abbreviations may also appear in lowercase letters. Abbreviations with very limited use are explained where they are used.

Abbreviation	Definition
ABP	Able-Bodied Passenger
A/C	Aircraft
ACARS	Aircraft Communications Addressing and Reporting System
AED	Automated External Defibrillator
AFT	aft (behind, at the back, at the rear)
AME	Aeromedical Examiner
AOG	Aircraft on Ground
ASC	Aviation Security Committee
ASM	Airport Services Manager
ASR	Air Safety Report
ATC	Air Traffic Control
BCG	Bacillus Calmette-Guerin
BLS	Basic Life Support
CA	Cabin crew
CAAT	The Civil Aviation Authority of Thailand
CBBG	Baggage in Seat
CCC	Cabin Crew Initial Training Certificate
CCH	Cabin Crew Handbook
CCM	Cabin Crew Manual
CCOM	Cabin Crew Operating Manual
CCRC	Cabin Crew Rest Compartment
CCTM	Cabin Crew Training Manual
CDC	The U.S. Centers of Disease Control and Prevention
CDSS	Cockpit Door Surveillance System
CHK	Checker
CIC	Crew-in-Charge
CMC	Crew Member Certificate
CO2	Carbon Dioxide
COBC	Cabin Operations Briefing Card
COMAT	Company Material
CPAP	Continuous Positive Airways Pressure
CPR	Cardio Pulmonary Resuscitation
CRF	Captain Report Folder
CRM	Crew Resource Management
CRS	Child Restraint System
CSCP	Cabin System Control Panel

(continued)

Abbreviation	Definition
CUT	Company Utility Transmission
CWS	Crew Work Station
DEPA	A deportee accompanied by an authorized escort
DEPU	A deportee not accompanied by an authorized escort
DGC	Dangerous Goods Committee (Organization)
DGR	Dangerous Goods Regulations
DGTM	Dangerous Goods Training Manual
DVT	Deep Vein Thrombosis
ELT	Emergency Locator Transmitter
EM	Emergency
EOD	Explosive Ordnance Disposal
EPAS	Emergency Power Assist System
EVAC	Evacuation
FAA	Federal Aviation Administration
FAP	Flight Attendant Panel
FAR	Federal Aviation Regulations
FCOM	Flight Crew Operating Manual
FCRC	Flight Crew Rest Compartment
FDIR	Flight Disturbance Incident Report
FDP	Flight Duty Periods
FDR	Flight Data Recorder
FWD	Forward
GHS	Globally Harmonized System of Classification
HEPA	High Efficiency Particulate Air
IATA	International Air Transport Association
ICAO	International Civil Aviation Organization
ICE	Dry ice
ID	Identification
IFE	In-Flight Entertainment
IFSO	In-Flight Security Officer
IMP	Interchange Message Procedures
INAD	Inadmissible Passenger
INOP	Inoperative
ISO	International Organization for Standardization
ISOP	In-flight Service Operation Procedure Manual
LDMCR	Lower Deck Mobile Crew Rest
LEO	Law Enforcement Officer
LH	Left-hand
LISO2	Lithium Sulfur Dioxide Batteries
LPM	Liter Per Minute
LRBL	Least Risk Bomb Location
LSA	Low Specific Activity (Radioactive Material)
MAAS	Meet and Assist

(continued)

Abbreviation	Definition
MAG	Magnetized Material
MDM	Mobile Device Management
MEDI	Medical
MEL	Minimum Equipment List
MHz	Megahertz
MPA	Multi Purpose Area
MPED	Medical Portable Electronics Devices
N/A	Not Applicable
NOTOC	Notification to Captain
NTPD	Normal condition of Temperature Pressure and Dry
OFCR	Overhead Flight Crew Rest
OM-A	Operations Manual Part A
OPA	Oro-Pharyngeal Airway
PA	Passenger Address
PAX	Passenger
PBE	Protective Breathing Equipment
PDR	Passenger Disturbance Report
PED	Portable Electronic Devices
PHM	Passenger Handling Manual
PIC	Pilot-In-Command
PMD	Portable Maintenance Device
POB	Portable Oxygen Bottle
POC	Portable Oxygen Concentrator
PSI	Pounds per Square Inch
PWD	Passenger with Disabilities
QAM	Quality Assurance Manual
RBI	Fully regulated lithium-ion batteries (Class 9, UN 3480) as per Section IA and IB of PI 965, and where applicable lithium-ion batteries shipped under approval in accordance with special provision A88 or A99
RBM	Fully regulated lithium metal batteries (Class 9, UN 3090) as per Section IA and IB of PI 968, and where applicable lithium metal batteries shipped under approval in accordance with special provision A88 or A99
RCL	Cryogenic Liquids
RCM	Corrective material
RCX	Explosive 1.3C
RDS	Biological Substance, Category B (UN3373)
REX	Normally Forbidden Explosive (Divisions 1.1, 1.2, 1.3, 1.4F, 1.5 and 1.6)
RFG	Flammable Gases
RFL	Flammable Liquid
RFS	Flammable Solid
RFW	Dangerous When Wet
RGX	Explosive 1.3G
RH	Right-hand
RIS	Infectious Substance

(continued)

Abbreviation	Definition
RLI	Fully regulated lithium ion batteries (Class 9, UN 3481) as per Section I of PI 966 and 967 or sodium ion batteries (Class 9, UN 3552) as per Section I of PI 977 and PI 978, and where applicable lithium ion batteries or sodium ion batteries shipped under an approval in accordance with special provision A88 or A99
RLM	Fully regulated lithium metal batteries (Class 9, UN 3091) as per Section I of PI 969 and 970, and where applicable lithium metal batteries shipped under approval in accordance with special provision A88 or A99
RMD	Miscellaneous Dangerous Goods
RNG	Non-flammable, Non-toxic Gas
ROP	Organic Peroxide
ROX	Oxidizer
RPB	Toxic Substances
RPG	Toxic Gas
RRW	Radioactive Material, Category I—White
RRY	Radioactive Material, Categories II and III—Yellow
RSB	Polymeric Beads
RSC	Spontaneously Combustible
RTAF	Royal Thai Air Force
RXB	Explosive 1.4B
RXC	Explosive 1.4C
RXD	Explosive 1.4D
RXE	Explosive 1.4E
RXG	Explosive 1.4G
RXS	Explosive 1.4S
SARS	Severe Acute Respiratory Syndrome
SATCOM	Satellite Communication
SCCM	Senior Cabin Crew Member
SCO	Surface Contaminated Object
SI	Supplementary Information
SMS	Safety Management System
SOP	Standard Operating Procedure
SSA	Special Security Arrangements
TB	Transmission of Tuberculosis
TDGM	THAI Dangerous Goods Manual
TI	Transport Index
TR	Temporary Revision
TTPM	THAI Technical Procedure Manual
TUC	Time of Useful Consciousness
UM	Unaccompanied Minor
UN	United Nations
UPK	Universal Precaution Kit
UTC	Coordinated Universal Time
VCC	Video Control Center
VF	Ventricular Fibrillation

(continued)

Abbreviation	Definition
WHO	World Health Organization
YP	Young Passenger
ZSV	Zone Supervisor

0.2.1.1 Unit of Measurement

ft	Feet
m	Meter

0.2.2 Definitions

A321neo	Designates the Airbus A321-251NX, as specified in the List of Authorized Aircraft for Specific Approval attached to the Operations Specifications.
Able-bodied Passengers	Passengers who are clearly physically able and are willing to assist crew in emergency situations.
Agent – Ramp	A person who supervises and co-ordinates on the ramp the tasks of ground handling for an aircraft departure or arrival.
Aircraft Type	Aircraft with a separate airworthiness type certificate.
Aircraft Variant	Aircraft of different configurations within the aircraft type which are considered, from cabin safety point of view, to be different type they are not similar in all the following aspects: • emergency exit operation • location and type of emergency equipment • emergency procedures.
Air Operator Certificate (AOC)	A certificate authorizing an operator to carry out specified commercial air transport operations.
Apron	A defined area, on a land aerodrome, intended to accommodate aircraft for purposes of loading or unloading passengers, mail or cargo, fueling, parking or maintenance.
Boarding	Equivalent to the term "Embarkation", means passengers entering an aircraft.
Bomb Threat	A communicated threat, anonymous or otherwise, which suggest, or infers whether true or false that the safety of an aircraft in flight or on the ground, or any airport or civil aviation facility or any person may be in danger from an explosive or other item or device.
Cabin	A compartment of an aircraft where passenger seats are installed.
Cabin crew (Also known as "Cabin Crew Member" in TCAR)	An appropriately qualified crew member, other than a flight crew or technical crew member, who is assigned by THAI or the Pilot-in-Command to perform duties related to the safety of passengers and flight during operations.
Cabin Crew Training Organisations	The Approved Training Organisations delivering initial training to Cabin crew members.
Cabin equipment	Items stowed in the cabins, lavatories and galleys to be used for the passengers comfort and consisting of table cloth, napkins, blankets, pillows, headrest covers, baby bassinets, reading material, towels, and toys for children, etc.
Civil Aviation Authority of Thailand (CAAT)	A government-appointed agency which regulates, oversees, and ensures the safety of air transport within the territory of the State.
Cockpit (Also known as "Flight Deck")	The part of an aircraft from which the crew control the aircraft.
Crew member	A person assigned by an operator to perform duties on board an aircraft.

Dangerous goods

Articles or substances which are capable of posing a hazard to health, safety, property or the environment and which are shown in the list of Dangerous Goods of the ICAO TI/IATA DGR or which are classified in accordance with the ICAO TI/IATA DGR.

Dangerous Goods Regulations, IATA (DGR)

The current edition of the document published annually by the International Air Transportation Association (IATA).

Deadhead crew member

A member of the flight personnel shown on the flight's documents as a crew member but taking part in the flight only for transportation purpose.

Deck

A structural floor level. For aircraft having one structural level only, this floor level shall be referred to as the "MAIN DECK". For aircraft having more than one structural floor level, the different floor levels shall be referred to as "LOWER DECK", "MAIN DECK" and "UPPER DECK", starting from bottom to top.

Disembarkation

The leaving of an aircraft after a landing, except by crew or passengers continuing on the next stage of the same through-flight.

Ditching

The forced landing of an aircraft on water.

Embarkation

The boarding of an aircraft for the purpose of commencing a flight, except by such crew or passengers as have embarked on a previous stage of the same through-flight.

Emergency

A state of sudden, pressing necessity requiring immediate response.

Emergency equipment

Equipment on aircraft which must be used by crew member during emergency or abnormal situations.

Most of emergency equipment on aircraft can be categorized into 3 types as per the functionality:

- medical equipment e.g. Automated External Defibrillator (AED), First aid kit, Medical kit, Portable oxygen bottle, Zero two medical oxygen, Universal Precaution Kit (UPK)
- firefighting equipment e.g. Fire extinguisher, Protective Breathing Equipment (PBE), Axe, Firefighting gloves, Smoke goggles
- evacuation equipment e.g. Life vest, Emergency Locator Transmitter (ELT), Emergency flashlight, Megaphone, Flight deck escape devices, Survival kit.

Other emergency equipment e.g. Handcuff with key/plastic restraint/scissors and Manual release tool are used for specific emergency situations.

Extra cabin crew

Extra Cabin crew is the cabin crew in addition to the required cabin crew. The number of extra cabin crew depends on the crew composition for service in each route/flight.

Federal Aviation Administration (FAA)

The CAA of the United States empowered to monitor, control and enforce aviation safety to/from/through the territory of the U.S.A.

Federal Aviation Regulations (FAR)

Special national requirements of the U.S.A. which air carriers must comply with in addition to minimum requirements of ICAO for international commercial air transport to/from/through the territory of the U.S.A.

Flight crew (Also known as "Flight Crew Member" in TCAR)

A licensed crew member charged with duties essential to the operation of an aircraft during a flight duty period.

Galley

The integral part of the aircraft where pantry/catering material is stored.

Hijack

Or "Unlawful seizure of aircraft", as the Hague Convention, 1970, prefers to call it, lays down that:

- any person who on board an aircraft in flight:
 - unlawfully, by force or threat thereof, or by any other form of intimidation, seizes or exercises control of, that aircraft or attempts to perform any such act, or
 - is an accomplice of a person who performs or attempts to perform any such act, commits an offence.

International Air Transport Association (IATA)

A non-governmental agency participating in the work of ICAO by supporting ICAO Standards and Recommended Practices and by promoting practices in the aviation industry.

International Civil Aviation Organization (ICAO)

A body of signatory or contracting states which establishes the obligations and responsibilities of states to ensure safe international air transport for all carriers operating within their respective territories.

Inflight

The operation of an aircraft from the moment when all its external doors are closed following embarkation until the moment when any such door is opened for disembarkation.

Medical Clearance

A permission granted to a passenger with a medical conditions or disability by THAI or delegated function to travel on proposed itinerary.

MEDIF

The forms used by airlines to manage passengers with medical problem or reduced mobility. The contents provides the airline with the specific medical data on the passenger and the special arrangements recommended by the physician. It also contains details of the air itinerary of the passenger and describes the special arrangements or assistance required by the passenger.

MEDIF itself is not an approval of medical clearance. THAI, by delegated function, shall determine if a medical clearance is required. A medical clearance is required for passengers with recent and/or unstable medical conditions. After complete assessment THAI shall approves the clearance, denies it or contact the treating physician if more information are required to make the decision.

Next Senior Cabin Crew Member Duties

The duties performed by the most appropriately qualified cabin crew designated to replace the Senior Cabin Crew Member in the event that the Senior Cabin Crew Member is incapacitated and unable to perform duties.

Pilot-in-Command

The pilot designated as being in command and charged with the safe conduct of the flight. For the purpose of commercial air transport operations, the "Pilot-in-Command" shall be termed the "PIC".

Ramp

A defined area, at a land airport, to accommodate aircraft for all activities associated with the handling of flights.

Required Cabin Crew

Required cabin crew is an aircraft qualified cabin crew required to operate the flight who shall be responsible for the assigned emergency exit or assigned area of evacuation of the aircraft.

Safety

The state in which risks associated with aviation activities, related to, or in direct support of aircraft, are reduced and controlled to an acceptable level.

Security threat

A potential hazard to the security of operations which could harm or endanger property, human life or the safety of operations.

Senior Cabin Crew Member as specified in TCAR OPS Part ORO.CC.200

The cabin crew member responsible to the PIC for the conduct and coordination of normal and emergency procedures specified in the operations manual, including for discontinuing non-safety-related duties for safety or security purposes.

0.3 Revision Information

0.3.1 General

The Company issues manual revisions both temporary and normal to provide new or revised procedures and information. Each revision includes changes in Manual Title Page, Page Header, Revision Record, Revision Highlights and a List of Effective Pages.

You can use List of Effective Pages to verify the manual contents.

0.3.2 Identifying Revisions

For clarity, the following symbols and marking shall be used:

<u>Notation</u>	<u>Meaning</u>
	Revisions, additions and deletions in the text shall be marked with revision bar(s) on the margin(s) to enable the reader to easily identify changes in each page. (see <i>Note</i>)

Note: When the manual has major change in whole part the notation symbol may not appear in the manual.

For temporary revision pages, apart from revision bar(s), a yellow label noticeably appears at the edge of such pages.

0.3.3 Revision Record

Issue No.	Revision No.	Revision Date	Remark
02	01	18-Mar-25	Data migration from AOCR to TCAR-Complied

0.4 Revision Highlights

Page	Comment
There are no change log comments for this revision.
